Henry Stolze Jr. Inventor
By His Attorneys,
C. Knowlton

My claimed invention is a new and useful Candle-Holder for Christmas Trees, which has for its object to provide a holder which can be readily attached to a limb or small branch of the tree and having means whereby the holder is positively supported in an upright position and is prevented from being tipped or displaced by shaking or any disturbance of the tree.

— Henry Stolze, Jr., of Manitowoc, Wisconsin, 1899
