

RADIATOR ORNAMENT  
V. McPHILLIPS

1,810,289

June 16, 1931

INVENTOR.

*Viola M. Phillips.*

BY

*John W. Farley*  
ATTORNEY.

The said invention relates to a radiator ornament comprising a hollow symbolical figure of translucent material, a bracket adapted to be supported on an automobile radiator, means for attaching the figure to the bracket, means on the bracket for supporting an electric lamp within said figure, and means for connecting the lamp to a source of current; substantially as set forth.
